International Resource Management (Canada) Ltd. is an engineering and project management firm, incorporated in 1994, with the objective of providing professional, efficient project management and engineering services to the oil industry. With over 75 years of combined oilfield operating experience, the **IRM** team furnishes engineering services on a full-life cycle of a well from surface lease acquisition through to well abandonment.

The people at **IRM** are its strength. The company is comprised of a group of individuals with varied but highly compatible operating backgrounds and education.

KEY PERSONNEL:

- **Paul Rossiter** - President & General Manager
- **Tom Donnelly** - Vice-President - Engineering and Business Development
- **Luke Lawson** - Manager – Completions
- **Adam Derry** - Drilling and Completion Engineer
- **Catherine Barcelona** - Operation Technologist

Paul Rossiter - a professional engineer with over 30 years of domestic and international experience, who has held senior positions with Dome Petroleum Ltd., Amoco Canada Petroleum Company Ltd. and Chauvco Resources Ltd. in many different disciplines including; drilling, completions, construction, reservoir, exploitation, and business development. Paul has managed a wide variety of projects in Canada, South America, and the Middle East.

Tom Donnelly - a professional engineer with over 20 years of domestic completion experience. Tom graduated from the University of Calgary in 1990 and has held a variety of senior technical positions with oilfield service companies. He is currently responsible for technical reporting, log analysis, engineering special projects, and business development for IRM.

Luke Lawson - a certified petroleum engineering technologist (CET) with over 20 years of diverse oilfield experience throughout Western Canada, the last 10 of which has been as the Completions Manager for IRM. Luke provides a high-level of project management experience and technical expertise to IRM's completion and workover projects.

Adam Derry - an engineer with 4 years of diverse oilfield experience in both drilling and completions. Adam augments his solid technical abilities with hard-earned field experience. His versatility is a tremendous asset to IRM and its clients.

Cathy Barcelona - an operations technologist with 10 years of technical administrative experience including audit file preparation, well licencing, regulatory applications and submissions. Cathy provides valuable administrative and operations support for IRM and its clients for construction, drilling, completions, and well abandonments.
